

MonitorChain: Call for Investment

Zenchain Inc. (the company behind MonitorChain) is soliciting accredited investors for a SAFE¹ round. The company is raising funds as a 'bridge' financing tool to establish and scale the business in advance of a formal seed equity funding round in the coming months. This is your opportunity to get in at the ground floor of this exciting and promising blockchain project!

Total Being Raised: **\$200,000²**
Minimum Investment: **\$25,000**
Discount Rate: **80%**

*All figures quoted in Canadian Dollars (CAD)

Why Invest?

Working Product

Unlike many blockchain projects, MonitorChain has a live, working, mainnet product that has already detected one minor security incident since launch.

Real Customers

MonitorChain has secured its first paying exchange ContractLand.io and is in advanced negotiations with several upcoming ICOs and decentralized exchanges.

Viable Revenue Model

As a subscription-based SaaS, MonitorChain uses a proven monetization model rather than vague tokenization models that fail to deliver value.

Experienced Team

The Zenchain team has a proven track record of building high quality digital products including DriverAssist, RescueRoot, and Total System Care

Financially Efficient

All expenses incurred by Zenchain Inc. including MonitorChain development have been completed for under \$150,000 total.³

Strong Partnerships

Even as a startup, MonitorChain has already secured several partnerships with major industry leaders including Hoshio.io and The SilverLogic.
